

## Lincoln/Jefferson Center Leg Attachment Instructions

1. First, lay top face down on soft, clean, smooth surface.
2. Insert leg by placing leg bolts into pre-mounted corner block.
3. Next, place (1) 5/16" flat washer on each bolt.
4. Next, place (1) 3/8" lock (split) washer on each bolt.
5. Next, screw (1) 3/8"-16 hex nut on each bolt and tighten by hand until snug.
6. Then, using a 9/16" wrench tighten each nut. (Do not over tighten)
7. Finally, repeat steps 2 thru 6 for next 3 legs.
8. Install (1) adjustable glide in each leg before turning table upright.
9. Set the center leg in place, with the prebored holes matching and drive (3) phillips head screws on each side as shown above.
