Ratchet Back Height Adjustment

To raise the back, slowly lift the back up until you hear a series of 4 to 5 clicks. Each click represents a position where the back will lock into place. To lower the back, raise the back all the way up until tension is released - the back will then return to the lowest position without stopping. Raise back up to desired position.

If the up/down operation of the ratchet back feels tight, raise and lower the back several times after assembling the chair to insure smooth functioning.

MECHANISM INSTRUCTIONS :

- (A) **SEAT HEIGHT ADJUSTMENT :**
Pull lever up and downward. Release lever when desired position is reached.
- (B) **BACK TILT ADJUSTMENT :**
Pull lever horizontally. Move backrest to tilt. To lock in upright position, push lever in.
- (C) **TILT TENSION ADJUSTMENT KNOB :**
Rotate knob clockwise / counterclockwise to adjust tilt tension based on body weight.
